Learning Forward Kansas Fall Institute

The Feedback Process: It's About Growth, Learning, & Change

(Learning Focused Feedback!)

Facilitator: Joellen Killian
November 17, 2017
WSU - Wichita, KS

As Kansas begins **KESA** (our new accreditation process), **KansansCAN**, and our **MOON SHOT**, **redesigning our schools for the success of EACH student**, different assumptions, attitudes, skills, and actions are wanted by all Kansas educators. Kansas leaders are hungry for new skills, strategies and protocols as we begin this journey together!

Join us **November 17th in Wichita for a day of learning together**. Learn how to create a culture in which educators routinely exchange feedback, engage in interactions, and assess the effectiveness of feedback. Gain a deeper understanding of the feedback process and how to implement it to promote increased educator effectiveness and student success.

Participants will:

- Develop an understanding of the purpose and definition of **learner-focused** feedback that makes it a learning experience;
- Identify components of an effective, **learner-focused** feedback process and conditions that support deep learning and change;
- Understand the connections between **learner-focused** feedback and **KESA, KansasCan**, our **MOON SHOT** and student success; and
- Create a plan to implement the attributes of effective learning-focused feedback based on your role (administrator, OVT Chair, coach, mentor, teacher leader).

MOON SHOT THINKING

We chose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard...

Our Own Jim Knight says....

Joellen Killion's book, **The Feedback Process**, is a must read. It provides a framework for educators as we focus on learning-focused feedback. What matters is growth, learning, and change. Is feedback about compliance or learning? We want feedback to be a part of the learning partnership that helps learners create new and better understandings of how we do what we do. **Joellen** provides us with clear definitions, guidelines, reflection tools and strategies to help all of us get better at giving and receiving feedback that enriches our own learning as we **redesign our schools for student success**.

In November the **LFKS Fall Institute** welcomes my friend **Joellen Killion** to Kansas. Joellen will engage educators as she focuses on learning-focused feedback. It will be a powerful day of learning together. Mark Your Calendars Now! -Jim
